DEATH RACE

Aim :

Build a robot that can be manually controlled to maneuver across a track with varying terrain along with obstacles and carrying a load

Task :

Reach the finish line in the least possible time with minimum penalties

Team Specification :

A team will consist of only 3 to 4 members, each team must have unique members. Teams having same members will be disqualified. Not more than 2 members of a team can control the bot at any given time.

Gameplay :

It will be of two rounds, Round 1 and Final Showdown Round (Round 2).

DEATH RACE

Bot Specifications :

- Maximum bot length allowed 30cm.
- Maximum bot width allowed 25cm.
- No limitations on bot's height.
- Maximum bot weight allowed 3kg, excluding batteries.
- The bot should be wired or wirelessly controlled. Batteries must be mounted on the bot, not held externally.
- 10% tolerance on dimensions and no tolerance in weight is allowed.

General Rules :

- A leaderboard will be created with all the points from the first round and the second round.
- Final score = score of Round 1 + score of Round 2.
- Team must not disassemble their bots before the final results are announced. Final scores will be announced on the day of the event.

In case of discrepancy, the Decision of Team ROBODARSHAN will be final without further discussion.

DEATH RACE

Round 1 :

- Two teams will compete simultaneously on identical tracks, one on black and another one on white (track side will be chosen by coin toss).
- Each track mirrors the same obstacles and terrain to ensure fairness.
- Both bots begin from the Start Line after the timer start and end at the Finish Line.
- Each bot must navigate the obstacles and complete the course by crossing the Finish Line within 15 minutes.
- Winner : The team whose bot completes the course in the shortest time earns 500 points.
- Runner-Up : The slower bot earns 400 points, provided it crosses the Finish Line within the time limit.
- Failure to Finish : If a bot cannot cross the Finish Line within 15 minutes, the team scores 0 points for the round.

DEATH RACE

Final Showdown Round (Round 2) :

- Points from the first round will be carried forward in this round.
- Second round will contain much more complex obstacles and terrains.
- At a time, one team will appear in this round.
- In this round, score will be evaluated based on completion time by these formulae:
- Score = (10 – (finish time in mins)) x 100 + penalties

Penalties :

- Any damage to the Death Race arena will lead to automatic disqualification.
- If there is a track change – (-25 points)
- If the bot falls out of track and need human intervention – (-50 points)
